Thalainayar IV sethi, Nagapattinam, Tamilnadu, India*

Abstract: Education is very important need for every child. The researcher is a block level coordinator of Tamilnadu state new scheme for below secondary students. He wants to guide the volunteer teachers who teaches the students from 5.00 P.M to 7.00 P.M. He decided to use the digital platform Zoom Cloud Meetings to explain them. Maximum participants of the meeting are new users of the app. He decided to take a survey through google form for the status of the meeting. He found 94.5 % understanding of the shared content through Zoom Cloud Meeting. This study gives a good result for the researcher's question.

Keywords: zoom cloud meeting, online meeting, webinar, ITK app

1. Introduction

When Smart Teachers like to their feedback of the teaching and change the teaching style to maximize the learning outcomes through research. The researcher was appointed as a special coordinator in Illam Thedi Kalvi scheme. He decided to use an online meeting through Zoom Cloud Meetings. He shared the link of the app through his Whatsapp group and asked the volunteer teachers to install it. Then he shared the meeting link through the Whatsapp group. The volunteer teachers touched in the prescribed time and joined the meeting.

2. Methodology

The researcher used a Google form survey to study the effect of Zoom app in explaining a correct usage of ITK. He used his Whatsapp group to share the app and link of the meeting. He conducted the meeting and gave screen share permission to a participant. Then the researcher and all the participants saw the screen. Now, the researcher explained the procedure to connect account details in the Illam Thedi Kalvi mobile app, with the support of the participant's live screen. After the class, the researcher created a Google form survey to the participants and collected the primary data.

3. Results

The researcher received the following data as responses. According to the fig.1, 94.5 % of volunteer teachers, understand the content through the app.

ZOOM செயலி மூலம் விளக்கப்பட்ட.....

54 responses
